

In the best interest of our democracy, the press and the media should be held accountable for misinforming and misleading the public on matters of elections and national security.

The media's terror alerts and its slanted views towards the election process are driving our nation into a prozac nation. Sinclair stations use public airwaves free of charge, and are required by law to serve the public interest. One-sided programs, like "Stolen Honor", do not serve the public interest and are harmful to our democracy. I don't believe that showing another program in favor of John Kerry will balance the situation. Please stop Sinclair in their efforts to interfere with our democracy.
